

STONEGATE® CONTEMPORARY

PRODUCT NUMBER # 110176

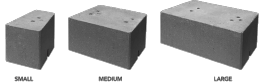

- Each unit has three finished face dimensions; this design variation simplifies the creation of random patterns and combines a smooth, weathered stone face with a rustic tumbled finish.
- Interlocking pin system maximizes design options, improves the installation process and increases the structural integrity of retaining walls while allowing a near vertical or setback installation.
- Made of durable concrete with iron oxide pigments that resist fading in extended UV exposure.

Stonegate is a smooth-faced versatile wall system that allows for the easy creation of gravity walls up to 3-feet in height, freestanding walls and outdoor living elements such as outdoor kitchens, fireplaces, fire pits and benches. Stonegate is offered in both a tumbled and Contemporary finish to meet the needs of your next project.
