RumbleStone

Imagine. Stack. Create.

RumbleStone Concrete Utility Blocks

Imagine. Stack. Create.

Reminiscent of our fondest childhood toys, Pavestone Company's innovative RumbleStone provides a set of rustic building blocks for your outdoor hardscape projects. Simple to complex, large or small, the possibilities for creative expression are as far and wide as that inner child's imagination.

The six tumbled RumbleStone sizes modulate in all dimensions and can be assembled in a variety of configurations and orientations. In addition to simple running bond patterns, the stones can be easily stacked with insets, moved forward and backward, horizontally and vertically for more aesthetically pleasing visual relief and texture. And, the 3.5-inch base module works with common dimension lumber for benches and pergola posts. Stack 'em up and bond with construction adhesive.

A grill enclosure, mailbox, water feature, bench, fire pit, or fireplace can be your next project. Combine with a paver patio or garden retaining wall for the ultimate outdoor living space.

What will you create?
